**Supplier Change Notification: Nelson Automotive GmbH**

To Whom It May Concern,

We refer to our recent discussion relating to the plans of the Doncasters Group to sell the global Nelson Fasteners Division, excluding that part of the business which serves automotive markets and customers. As a result, the global Nelson Automotive business will be retained as part of the Specialty Automotive Division of Doncasters. The process will involve the Automotive business based in Aylesbury, UK, ceasing to have a physical presence with products being shipped direct from Nelson Automotive in Gevelsberg, Germany.

As a valued customer of the Nelson UK Automotive business it is our clear desire to continue our successful relationship with you and to provide you with the same excellent customer service and products. Nelson in the UK always operated as a branch of Nelson Bolzenschweiss Technik GmbH & Co. KG and accordingly, any placed orders that are current and awaiting delivery, will be transferred to and honoured by Nelson Automotive GmbH. As from 2<sup>nd</sup> April 2018, any new orders for our automotive products and services should be placed on Nelson Automotive GmbH which will continue to supply you on the same terms and conditions as previously agreed. Nelson Automotive GmbH will issue invoices for deliveries after that date and new bank account details for payments will be issued with the invoices.

Should you have any questions concerning these arrangements please speak to your usual contact, otherwise, we will assume that these arrangements are acceptable to you.

We look forward to continuing our mutually beneficial relationship.

With best regards,

Andreas Strehl
